

Assessment & Institutional Effectiveness

Assessment Newsletter

Spring 2015

With final exams right around the corner, we hope you are looking forward to the end of the spring semester!

This semester the Office of Assessment & Institutional Effectiveness (A & IE) administered a variety of recurring assessments and surveys including: the ETS Proficiency Profile, staff satisfaction survey, graduate student satisfaction survey, administrator evaluations, and course evaluations. Each of the tools mentioned previously are administered either annually or on a 2-year rotation.

Course evaluations took place between April 13th and 24th. We would like to say thank you to the faculty, staff, and students for your cooperation during this process. It's a joint effort and we are extremely appreciative.

-Office of A & IE

New Surveys

Spring 2015

In addition to the new co-curricular learning survey, the Office of A & IE, with the help of various student services offices, also administered several other new surveys including: campus climate, student life and housing satisfaction and intramural sports surveys. With these new

assessment tools, we hope to continue improving your experience at NWOSU.

We will also continue our new process of assessing co-curricular learning by conducting focus groups during the fall 2015 semester.

Thank you for your feedback!
