Research Total	12221	80.4%	9821	11671	61.4%	7161

Possible takeaways

The number of RUSO graduates working in Oklahoma five years after graduation is 6,980, which is comparable to the number of graduates from OU and OSU combined.

Graduates from RUSO institutions are more likely to stay in Oklahoma; graduates from the other four-year institutions are far more likely to leave the state a few years after graduation.

The percent of RUSO graduates working in Oklahoma five years after graduation is 85%, compared to 59% for OSU, 64% for OU, and an average of 79% for the other four-year institutions.

Possible takeaways

The number of RUSO education graduates working in Oklahoma five years after graduation is 1,218, which is double the amount of graduates of OU and OSU combined.

The six RUSO institutions produce almost twice as more education graduates working in Oklahoma than OU, OSU, and the other five four-year institutions combined.

The percent of RUSO education graduates working in Oklahoma five years after graduation is 89%, compared to 77% for OSU, 67% for OU and an average of 87% for the other four-year institutions.
